CARLOT SHIPMENTS OF FRESH FRUITS AND VEGETABLES

BY COMMODITIES, STATES, AND MONTHS

Including boat shipments reduced to carlot equivalents

CALENDAR YEAR 1948

WASHINGTON 25, D. C.

MAY 1949

## FOREWORD

The carlot shipments summarized herein were furnished the Fruit and Vegetable Market News Service by railroads, boat lines, and the Railway Express Agency, and this cooperation is gratefully acknowledged.

Heavier loadings of most fresh fruits and vegetables under O. D. T. Order #18 and supplementary directives were continued during 1948. A Table showing a comparison of the "usual" pre-war load with the 1948 "usual" load of the principal fruits and vegetables moving in volume by rail is included in this summary. These "usual" loads represent the consensus of opinion in the major markets and the heavier shipping areas for the commodities in question, but may not represent an actual average of all cars loaded.

Footnotes indicating USDA Government Purchases are shown in connection with commodity tables herein when segregation of such purchases were reported to the Market News Service by the carriers. Cars shown in these footnotes do not always represent complete Government purchases of the commodity in question. This is due to the fact the railroads cannot always readily identify these purchases as such.

Truck shipments are included insofar as these data were obtainable. The same factors which have been in use for several years for converting truck shipments to carlot equivalents were used, and this should be considered when comparing truck data with rail. Exception: Citrus - See footnotes at bottom of citrus tables.

TABLE SHOWING "USUAL" PRE-WAR CARLOT LOADS COMPARED WITH "USUAL" LOADS IN  
1948 OF CERTAIN FRESH FRUITS AND VEGETABLES

The table below does not purport to represent average loads for the entire country. This table is the result of a survey made in several terminal markets, also by field offices in the principal shipping areas, and we believe is representative of "usual" loads for the commodities in question from heavier producing territories
